Is it possible to have fun watching movies and be healing your mind while you do it ? Is it possible to immerse in movies of various genres and get more benefit than years of therapy ? Is it really possible to Wake up to the Wholeness and Truth of who you are by watching movies ?

YES ! YES ! YES !

Come and experience a weekend of movie watching with deep, insightful commentary from Jason and Armelle. Allow yourself to heal past grievances and let go of future concerns.

Not only will you never watch movies in the same way again but if you are open to it, you will never see anything in quite the same way again.
